

PREVA

YOUR AI. ALWAYS.

BRAND GUIDELINES — VERSION 1.3

FEBRUARY 22, 2026

BRAND OVERVIEW

PREVA is an AI platform for building personal AI companions and agents — superheroes that save the day. The brand identity reflects this through a bold, premium wordmark. No mascots, no abstract AI clichés, no unnecessary complexity. Just a confident, beautifully crafted word: **PREVA**.

Brand Philosophy

PREVA comes from the Latin root meaning “the one who goes before” — the hero who leads the way. It connects to “prevail.” Every AI built on PREVA is a superhero: saving time, solving problems, making people’s lives better.

Brand Personality

TRAIT	DESCRIPTION
Heroic	Bold, confident, protective. Your AI has your back.
Premium	Clean, elevated. This isn’t a toy — it’s a partner.
Human	Built for people who want AI that feels right, not threatening.
Confident	Knows what it is, doesn’t need to prove it.
Clean	Every element earns its place. No clutter.
Warm	Despite the bold aesthetic, the heart is warm. Heroes care.

What PREVA Is Not

- Not corporate or enterprise-speak
- Not “AI robot” aesthetic (no circuit boards, no glowing neural nets)
- Not scary or dystopian — this is POSITIVE AI
- Not bright, flashy, or loud — premium is quiet confidence
- Not cluttered or over-designed

The Attitude

PREVA doesn't sound like a tech company. PREVA sounds like the smartest, most capable person you know — who also happens to be funny, honest, and a little bit irreverent.

We don't say "leverage AI-powered solutions." We say "your AI actually does stuff."

We don't say "seamless integration." We say "it just works."

We don't say "empowering human potential." We say "AI that actually gives a shit."

Voice Principles

#	PRINCIPLE	DESCRIPTION
1	Human first.	Write like a person, not a press release.
2	Confident, not arrogant.	We know we're good. We don't need to shout about it.
3	Honest.	If something sucks in the AI industry, we say it sucks.
4	Warm with edge.	Approachable but not soft. Friendly but not desperate.
5	Show, don't explain.	

What We Sound Like

- “Yeah, I remember. You were telling me about that thing with your boss. How’d that go?”
- “Your stuff is your stuff. I don’t even look unless you ask.”
- “You good? Alright. I’ll be here.”

What We Never Sound Like

- “I’d be happy to help! However, I don’t have access to previous conversations.”
- “As a large language model, I...”
- “I hope that helps! Is there anything else I can assist you with?”
- “Synergizing AI-powered solutions for the modern enterprise”

Banned Words — Never Use These

Synergy. Leverage. Seamless. Empower. Revolutionize. Disrupt. “AI-powered.” “Next-generation.” “Cutting-edge.”
